Per un ottimale utilizzo in abbinamento ai soffioni doccia della linea SPAZIO si consiglia l'utilizzo del rubinetto termostatico VISENTIN o in alternativa un rubinetto con capacità di erogare almeno 25lt/min. Si raccomanda inoltre uno scarico adeguato alla portata dei soffioni doccia

For a perfectly function with SPAZIO super shower head we recommend to use VISENTIN thermostatic mixer or as an alternative a mixer with a minimum flow capacity of 25 lt/min. It also best to provide a drain adequate at the super shower head flow
